# Let visions become reality: Experience meets passion

Following the philosophy „Turning visions into reality“, we use our extensive experience as a resource to realize ideas together. Whether it's a gym, a physiotherapy practice, a personal training studio or an athletics center - with over 10 years of expertise, we are ready to provide you with targeted support. Thanks to our many years of experience in functional and athletic training and our partnerships with first-class brands, we have become experts in the world of studio design.

We create customized solutions - from planning to installation - that are specifically designed for your individual needs and location. However, our service goes beyond simple realization: we offer continuous support through consulting, training and expertise in the areas of digitalization and marketing. Together with you, we make your dreams come true.

Our profound expertise and our passion for training and health make us a trustworthy partner for you if you want to pursue your goals.

## Studio Design

**In 5 steps to your vision |** With our full-service offer, we are at your side in all phases - from planning, delivery and installation through to maintenance. Even after the project has been completed, we offer you continuous support and are always there for you.

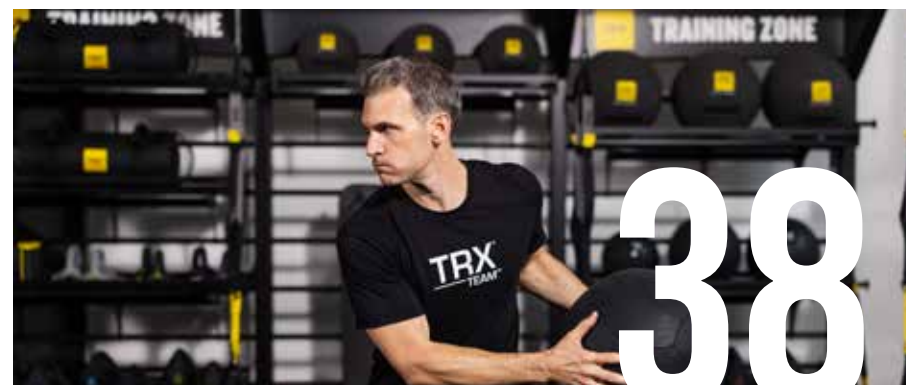

## PB Gym

**The all-in-one Masterstudio |** Our Masterstudio covers all aspects of functional training, whether you prefer a specific zone or the complete package. From the floor, turf, racks and small equipment to recovery tools, we offer individual training areas.

## PB Physio

**The all-in-one sample studio for your medical practice |** We offer the ideal room and furnishing concept for every step, be it new planning, renovation or modernization. Because we know: The more individual your patients' needs are, the more important the right equipment becomes.

## TRX Studioline

**Effective training in an inspiring environment |** With TRX® studio solutions, you can make optimum use of the space and create an individual functional training zone with an attractive design. Your customers will be impressed by the high-quality materials and sophisticated systems!

## CENTR x HYROX

**Ready for the next HYROX challenge?** Discover the new performance line from CENTR x HYROX for your own gym. With the same equipment as for official competitions, you and your clients will be optimally prepared to increase performance.

## PB Steel

**Discover our high-quality steel products** | Fully customizable rigs, racks, attachments and multistorage solutions for home gyms, gyms, fitness studios, performance centers and physiotherapy practices. Robust and premium quality.

## The right solution

We face unique challenges with every project, as the equipment requirements vary depending on the area and use. Thanks to our extensive expertise and broad product range, we are able to equip every room individually.

## In-house training

Through our in-house training courses, you can ensure that your employees in your studio/practice are continuously developing new skills and learning to meet the challenges of a changing world of work.

# Let your visions become reality with us!

We don't just want to realize a project, we want to build a long-term partnership. That's why we're with you every step of the way: Our journey starts with a face-to-face meeting, a video call or a phone call to discuss your vision.

We systematically plan your training environment, including flooring and equipment, with 3D designs for visualization. A customized offer is created according to your requirements. Detailed production planning and preparation take place, followed by delivery, flooring and precise installation.

# In 5 steps to your vision

## 1.

### GETTING TO KNOW

The first step of our journey together can either be a personal meeting, a video call/online meeting or by telephone. This gives us the opportunity to get to know each other better and talk about your wishes and visions. We focus on the details of your property or training area to create a clear base for our planning.

## 2.

### CONCEPT & DESIGN

We take a systematic approach, starting with the design of your flooring and the planning of rigs, racks, cable pulls and cardio equipment to create a complete training experience. We also consider kettlebells, dumbbells and barbells as well as TRX systems and sleds. Our process includes 3D designs that give you a clear vision. These designs help to optimize each element before implementation begins. So your vision will be perfectly realized.

## 3.

### FINALIZATION

After discussing your wishes and requirements, we will create a customized offer that takes possible changes into account. (Only when the quote meets your expectations do we commission the implementation). We then plan the production in detail, from floor coverings to constructions such as rigs. Our experts ensure precise planning for a smooth implementation. Your studio takes shape as we carefully prepare each component to turn your vision into reality.

## 4.

### IMPLEMENTATION

The next step involves the delivery and unloading of the products. This is particularly relevant when our team is responsible for installation. After careful preparation of the subfloor, we lay the floor. This is followed by the precise installation of the training and storage systems with the utmost care. Every detail is considered to ensure that your studio is both functional and aesthetically pleasing and meets the highest standards.

## 5.

### SUPPORT

Following successful implementation, our commitment continues beyond the end of the project. We will continue to be there for you and offer ongoing support. If questions arise or you would like targeted further training, we organize in-house training courses with renowned experts. We also support you with topics such as digitalization and marketing. Our experience is your resource for realizing your visions and promoting sustainable success.

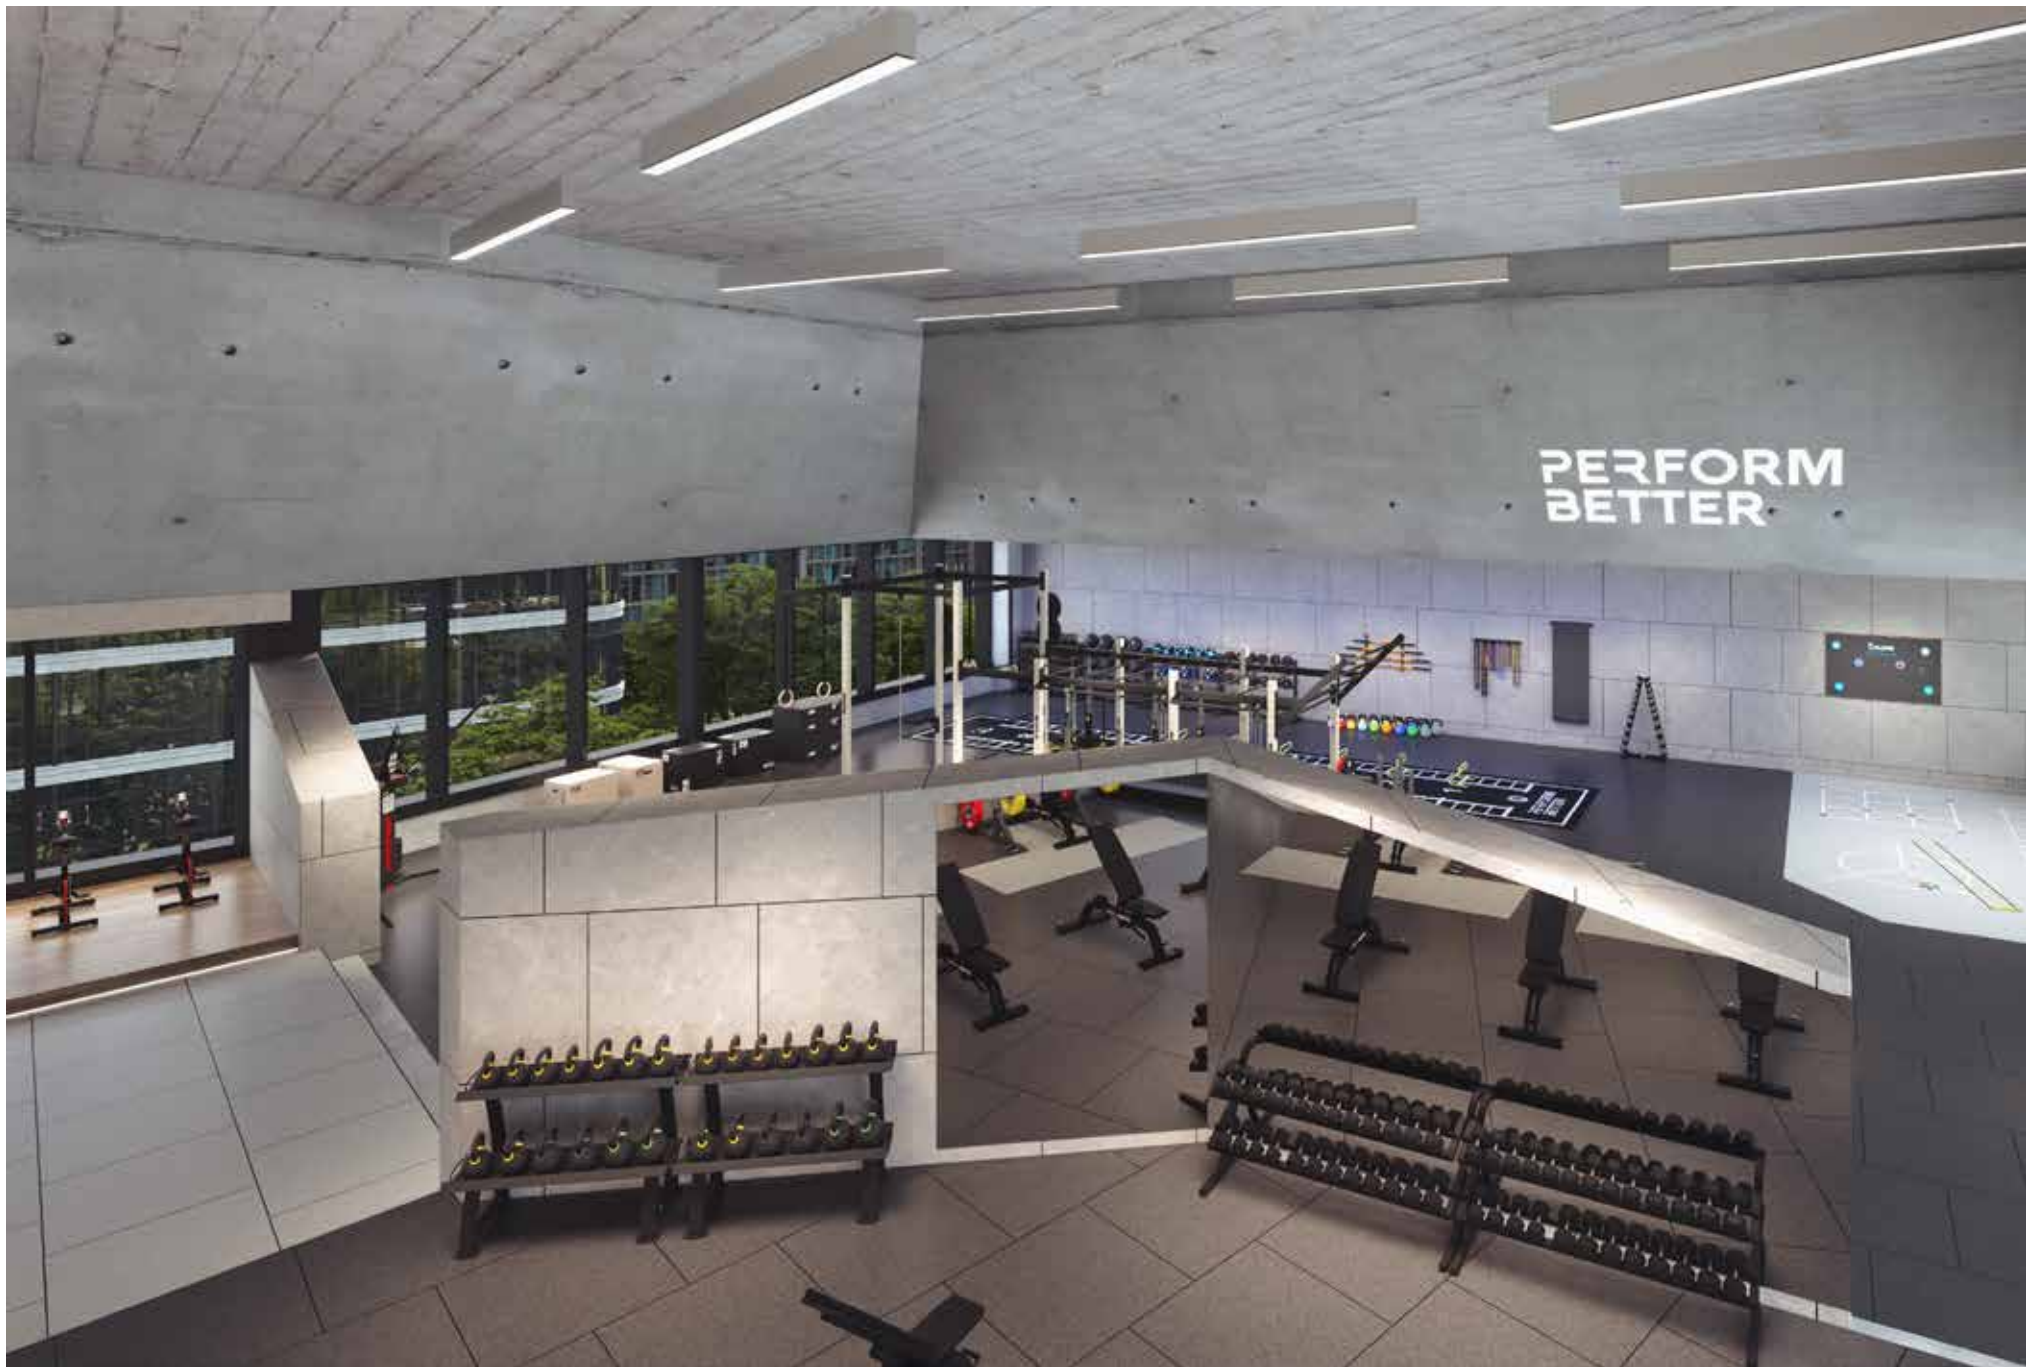

# ALL-IN-ONE Masterstudio

The All-in-One Masterstudio (PB Gym) covers the entire spectrum of functional training. Whether you want to focus on a specific zone or prefer the whole package, you'll find everything here - from mobility and recovery to athletics, cardio, strength and coordination. Our all-inclusive training environments are the ideal solution for individual training goals.

# CENTR x HYROX

HYROX has established itself as the leading event in the functional training scene in recent years and has attracted a large community. However, to be successful in this challenge, not only effective training is important, but also the right equipment and the right setting.

This is where the new performance line from CENTR x HYROX comes into action. It not only offers a clean design, but also optimizes aerodynamics and performance. From power sleds with interlocking bumper plates to power ropes, wall balls and innovative kettlebells, each element is specifically designed for HYROX training or competition. This allows us to design not only HYROX areas, but also complete HYROX gyms that perfectly prepare your customers for their next challenge. Our gyms are hotspots for the community and unite people with the same passion and motivation. Join us and let us make your HYROX gym a reality!

## The benefits of your in-house training:

- Emotional connection to the team and their mission
- Shared know-how: manual & certificate for each participant
- You can train your entire team at the same time with one appointment
- Save travel costs for you and your team - we come to you
- Clear concepts that are easy to teach and manage
- Flexible scheduling - determine the time of the training yourself
- Individually customized to your wishes

## 5 steps to your in-house training course:

1

### Contact us

Get in touch with us by email at [seminare@perform-better.de](mailto:seminare@perform-better.de) or by phone on +49 89 4444679-251.

2

### Get to know us

We will get back to you immediately to discuss your wishes and the details.

3

### Feedback & detailed planning

We discuss your feedback on our offer and adapt it to your wishes.

4

### Finalization

We finalize the offer with all your wishes and plan a fixed date for the in-house training.

5

### Realization

The in-house training course takes place on your location at your preferred times and all participants receive a certificate of attendance.
